Sterile Water Gel

HydroGel® is a non-wetting, sterile water gel for animal hydration. 98% pure water. The industry standard for hydration during transportation.

Delivering Solutions

- Suitable for short or long transit shipping times
- Supplement for compromised, recovering or weaning animals
- Alternative to water bottles and excellent emergency water source
- Useful in transitioning animals to automated watering systems

Delivering Quality

- Sterile inside and out
- Tyvek[®] medical packaging
- E-Beam irradiated
- Complies with quality standards as tested by an independent laboratory
- Certificate of analysis by manufactured lot
- Individually coded with lot and date of expiration

Instructions

- To be administered under the direction of a veterinarian
- Manufactured for use in research animals
- Dosage: 1 cup is designed for 5 mice over 2 days based on average size and consumption. Monitor intake.
- Cut an X on the top of the plastic pouch before presenting it to the animals for better access to the gel

Ingredients

Purified Water, Hydrocolloids, Electrolyte Blend, Food Acids.

Shelf Life

Shelf life is 24 months, unopened at room temperature storage.

Clear H₂O°

Company Information

ClearH₂O° is committed to advancing animal research and agriculture with more effective and ethical hydration, nutrition, and medication delivery solutions utilizing our proprietary gel technology. Made in our FDA approved facility, ClearH₂O° products are formulated with purified ingredients and highly palatable to optimize consumption. The ready to use, convenient product format with long-dated, room temperature shelf stability helps animal researchers and producers improve the health and welfare of their animals while optimizing research and productivity outcomes.
