

Purified Water

AquaPak® – Purified water for laboratory animals.

Delivering Solutions

- Convenient alternative to water bottles
- Excellent emergency water source
- Ready-to-use pouch saves labor, eliminates bottle filling and washing equipment
- 420 ml and 450 ml pouch volume provides extended water supply
- Air-free pouch easily molds to fit cage lid water receptacle
- Acidified and chlorinated formulations available

Delivering Quality

- Commercially sterile
- Complies with quality standards as tested by an independent laboratory
- Certificate of analysis by manufactured lot
- Individually coded with lot and date of expiration

Instructions

- To be administered under the direction of a veterinarian
- Manufactured for use in research animals
- Dosage: Based on an average daily water consumption of 5mls/ mouse/day, one 420ml and 450ml AquaPak® pouch will last at least 14 days for a five-mouse cage density.

Ingredients

70-40-1420, Clear Purified Water, Food Acid.

70-50-1420, Blue

Purified Water, Food Acid, Blue #1.

70-60-1420, Chlorinated 70-60-1450, Chlorinated

Purified Water, Sodium Hypochlorite.

Shelf Life

Shelf life is 24 months, unopened at room temperature storage.

Clear H₂O°

Company Information

ClearH₂O° is committed to advancing animal research and agriculture with more effective and ethical hydration, nutrition, and medication delivery solutions utilizing our proprietary gel technology. Made in our FDA approved facility, ClearH₂O° products are formulated with purified ingredients and highly palatable to optimize consumption. The ready to use, convenient product format with long-dated, room temperature shelf stability helps animal researchers and producers improve the health and welfare of their animals while optimizing research and productivity outcomes.
