

ClearH<sub>2</sub>O<sup>®</sup>

AquaDrop<sup>®</sup>

## Proprietary Double-Phase GelDrop<sup>®</sup> Technology for the Topical Application of Orally Delivered Ingredients During Hatchery Processing

**AquaDrop<sup>®</sup>** is a ready-to-use, flowable gel for oral delivery of biologics, nutrients, and supplemental hydration to day-old chicks and poults. AquaDrop<sup>®</sup>'s physical properties produce droplets with superior surface tension allowing for optimum preening and consumption of target ingredients.

### Clearly Better Quality

- **Optimized Delivery** – Exclusively designed for administration through the GelDrop<sup>®</sup> Applicator to provide enduring droplets with optimum distribution, adhesion, homogeneous ingredient suspension and non-wicking/wetting properties.
- **Contaminant Free** – Commercially sterile and Independent laboratory tested.
- **Quality Assurance** – Produced in an FDA approved facility with Certificates of Analysis available at [www.clearh2o.com](http://www.clearh2o.com).

### Clearly Better Convenience

- **Ready-To-Use** – No measuring, mixing, or straining before the addition of your target ingredients which eliminates inconsistency typically found in powder gels due to mixing variability or mineral and chemical contaminants from the local water supply. ClearH<sub>2</sub>O<sup>®</sup>'s proprietary AquaDrop<sup>®</sup> manufacturing process ensures the highest product quality and consistency for reliable convenience for our customers.
- **Packaging** – 4.25 gallon pail, 60 pails/pallet
- **Shelf Life** – 12 months at room temperature with no refrigeration.

### Ingredients

Purified Water, Food Starch, Hydrocolloids, Electrolyte Blend, Food Acid, Food Color.

### Shelf Life

**AquaDrop<sup>®</sup>** 12 months at room temperature.  
**AquaDrop<sup>®</sup> Reactant** 24 months at room temperature.  
No refrigeration or special handling for either.

### Ordering Information

**AquaDrop<sup>®</sup> - 69-559-PL**  
4.25 gallon pail (36 lbs)  
60 pails / pallet

**MSDS**  
available upon  
request.

### Ordering Information

**AquaDrop<sup>®</sup> Reactant**  
**69-600-BIB**  
44 lb bag

## Nutritional Information per 100g (calculated from database figures)

Calories	16.2 kcal	Calcium	3.6 mg
Carbohydrates - total	4.2 g	Potassium	43.2 mg
Dietary Fiber	0.9 g	Sodium	92.8 mg
Water	93-97 %		

## OPTIMUM HYDRATION, NUTRITION, MEDICATION DELIVERY

### Droplet Size & Adhesion

- Non-uniform droplet size mimics feed granule variability.
- Color attractant promotes preening and consumption.
- GelDrop® technology produces droplets that stick on contact, eliminating roll off.

### Homogeneous Ingredient Suspension

- Formulated for mixing and distribution of ingredients throughout the gel.
- Ready-to-use formulation ensures gel consistency and stability.
- Customizable ingredient formulations available.

### Droplet Distribution

- Dual, independent manifold heads provide variable size droplets.
- HydroDrop® and the GelDrop® Applicator were designed to deliver viscous gel materials.

### Non-Wicking/Wetting

- Proprietary hydrocolloid mix.
- High droplet surface tension minimizes wicking.
- Prevents stress from wetting and thermal sensitivity.

# ClearH<sub>2</sub>O®

## Company Information

ClearH<sub>2</sub>O® is committed to providing products that improve the welfare and productivity of poultry. We offer poultry breeders and producers gel products that support the optimum delivery of hydration, nutrients, biologics and therapeutic ingredients to chicks and poults. Our proprietary product formulations and manufacturing process results in unsurpassed product consistency and convenience.
